**Notes to the financial statements for the year ended 31st March, 2013**

**1. Significant accounting policies**

**a. Basis of preparation of financial statements**

The financial statements are prepared under historical cost convention on the accrual basis of accounting in accordance with the Companies Act, 1956 ("the Act") and the Accounting Principles Generally Accepted in India ("Indian GAAP") and to comply with the Accounting Standards prescribed in Companies (Accounting Standard) Rules 2006 issued by the Central Government in exercise of power conferred under Section 642(1) (a) and relevant provisions of the Act.

**b. Use of estimates**

The preparation of financial statements in conformity with the Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

**c. Revenue recognition**

Revenue is recognized on accrual basis and comprises of aggregate amounts of sale price agreed with the customers and is recognized on the basis of cost of rights so transferred.

**d. Inventories**

Land is valued at cost, which is determined on average method. Cost includes cost of acquisition and all other costs incurred till the date of Possession.

**e. Amortization of miscellaneous expenses**

Preliminary expenses are charged to revenue in the year in which they are incurred.

**f. Accounting for taxes on income**

i. Provision for current tax is made, based on the tax payable under the Income Tax Act, 1961.

ii. Deferred tax on timing differences between taxable and accounting income is accounted for, using the tax rates and the tax laws enacted or substantially enacted as on the balance sheet date. Deferred tax assets are recognized only when there is a reasonable certainty of their realization. Wherever there are unabsorbed depreciation or carry forward losses under tax laws, Deferred tax assets are recognized only to the extent that there is virtual certainty of their realization.

**g. Provisions, contingent liabilities and contingent assets**

A provision is recognized when:

- the Company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

**h. Earnings per share**

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity share.
