The preparation of financial statements in conformity with the Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. c. Borrowing costs

Borrowing cost that are directly attributable to the acquisition or construction of a qualifying asset (including real estate projects) are considered as part of the cost of the asset/project. All other borrowing costs are treated as period cost and charged to the statement of profit and loss in the year in which incurred.

d. Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists the Company estimates the recoverable amount of the asset. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.
