Caution regarding Forward-Looking Statements

We have used a few forward-looking (futuristic) statements throughout the report solely to articulate our future growth prospects and to exemplify our intended milestones. However, the actual results may vary from the forward-looking statements as the business is subject to a number of risks and uncertainties according to the market scenario. For reader's reference, we have used words like 'anticipate', 'estimate', 'expect', 'project', 'intend', 'plan', 'believe' and words of similar nature to signify every forward looking statement. We do not guarantee that these statements will stand true, but we believe that these are backed up by

prudent assumptions. The achievement of the result may vary due to risks, uncertainties and inaccurate assumptions. If in case, certain unforeseen risks or uncertainties dominate the market or any of the assumptions proved erroneous, then the final result may vary exponentially with respect to the anticipated, estimated or projected result. Thus, the readers should bear this in their mind.

We undertake no obligation to update any forward-looking statements publicly, if there is any change in future events, there is new information, or whatsoever.

**Strengthening
the foundation with partnerships.
Touching the sky with growth.**

Omaxe Ltd has made a robust comeback post the two back-to-back challenging years of the Covid-19 pandemic. The key factor behind this massive growth is forging partnerships and collaborations in finance, execution and futuristic project facilities.

The core focus of any partnership is the belief that both entities will create synergy. The greatest win for any company is building successful partnerships to achieve long-term goals and continuous growth. All of this is evident from the recent partnerships Omaxe has forged.

Omaxe secured funding from Värde Partners, a leading global alternative investment firm for expediting the construction and delivery of its projects as well as for expansion.

To help India achieve its 2030 target, Omaxe has partnered with Jio-BP to establish a battery charging ecosystem for electric vehicles. Omaxe has also offered co-retailing products for customers at the iconic Omaxe Chowk in Chandni Chowk, Delhi.

These partnerships reflect the continued belief in what Omaxe sees as a significant, scalable opportunity set across the Indian real estate market and their ongoing commitment to investing in India.

Omaxe has been helping customers, both families and corporates, turn their dreams into reality for over thirty years now. To continue doing so, Omaxe has embraced new technology and created innovative products - keeping in mind the customers' interests.

Omaxe has taken a new approach but the core values remain intact. Its key focus is in alignment with what it has been doing traditionally over the years - creating value for all stakeholders and at the same time, setting the path for future growth. The company has shown a strong recovery in this fiscal year.

The overall economic growth and infrastructure development have also been reflected in the financial performance. The consolidated income from operations grew to Rs 637.94 crore in FY 2021-22 as compared to Rs 514.59 crore in FY 2020-21.

About Omaxe Limited

The civil engineer-turned-first-generation entrepreneur Rohtas Goel laid the foundation of the brand 'Omaxe' in 1987. Within two years, the company was incorporated as Omaxe Builders Private Ltd, and later it became a 'Limited Company' in 1999. Under Mr Rohtas Goel's able leadership, Omaxe made its footprints in the real estate sector. Omaxe then came out with its initial public offering (IPO) in 2007, which

got oversubscribed by more than 35 times. The company has a major presence in 28 cities across eight states. True to its motto 'Turning Dreams into Reality', Omaxe has always delivered quality and excellent real estate spaces. Now, we at Omaxe, are strengthening the pillars of our foundation by partnering with companies who can help support the development and growth of our extensive real estate portfolio.

VISION

To be a trusted leader in the real estate sector contributing towards a progressive India

MISSION

To provide customer satisfaction and create value for stakeholders through professionalism, transparency, quality, cutting-edge technology and social responsibility

KEY NUMBERS

With over three decades of experience in real estate and construction contracting, Omaxe is one of India's leading and trusted real estate companies. Here is an overview of the impact of our work:

Diversified portfolio Hi-tech townships, Integrated Townships, Group Housing, Shopping Malls, Office Spaces, SCOs, Hotels

Footprints across 8 states; 28 cities

Sold 1.05 million sq. ft. space in residential segment and 0.53 million sq. ft. of office and commercial space

Delivered 3.10 million sq. ft. area during the reported financial year

21 ongoing residential & commercial real estate projects - 3 Group Housing, 12 Townships, 6 Commercial Malls/office spaces/Hotels/SCOs.

Key Operational Highlights

Omaxe has surely come a long way in the past 34 years. But this is not it. We are hungry for growth and we will continue to strive for it.

Omaxe is the hope bearer of the entire stakeholder group including employees, customers, governments, investors, lenders and society at large. Being able to come up to their expectations is the bare minimum which we can do. We are focusing on constantly pushing ourselves to be in a constant state of growth. This is possible by partnering with stakeholders who have the same values as us and that's what we have done this year.

So far, the journey for us has been amazing, but there are many more chapters which will soon be added to this story.

- Omaxe secured Rs 440 crore funding from Värde Partners
- Omaxe partnered with Jio-bp to set up EV charging & swapping infrastructure across 12 cities at several of its properties
- Omaxe on-boarded Eastin Hotel & Eastin Easy, the four-star and three-star brands of hotels by Absolute Hotel Services, to operate Serviced Apartments in Lucknow
- Omaxe World Street Faridabad leased 1.14 million sq. ft. in Fy22
- In its retail properties, the company has on-boarded several national and international brands across a wide range of categories including entertainment.
- The Company sold 1.58 million sq. ft. valued at Rs 1266 crore
- The Company delivered 3.10 million sq. ft. area in FY22 compared to 2.71 million sq. ft. in Fy21
- Omaxe launched new properties spread across 0.91 million sq. ft. in Lucknow, New Chandigarh and Faridabad. Out of which 0.51 million sq. ft., having a value of Rs 399 crore, was sold
- Successful conceptualised landmark project which includes Omaxe World Street, Faridabad; Omaxe Chowk, Chandni Chowk; The Lake, Chandigarh among others.

Message from Chairman

Dear Stakeholders,

“What’s old collapses, times change, and new life blossoms in the ruins.” The COVID-19 pandemic upended the global economy, most industries, health systems, employment, and left the old ways of the world in ruins. But from these ruins is now emerging a new normal, which is different, which is exciting, and which has a great potential to take our country to newer economic heights! Nearly every sector was firing on all cylinders during the FY2021-22 under this new normal as the COVID-19 pandemic took a backseat and restrictions were gradually eased after the first quarter of the financial year. India’s GDP was expected to rally 8.7% on a YOY basis. Similarly, the Global economy also rebounded to expand by 6.1% in 2021 making the overall macro-economic scenario very positive.

The most characteristic change with deep reaching impact that came with this new normal is the accelerated adoption of digital technology. It has changed the way we work, socialize, pay for our purchases, consume entertainment, learn, and many other aspects of our lives. And this impact has percolated to how we think about space as well, whether it is living or work or recreational. On the one hand most companies have moved to flexi-work arrangements reducing the need for office space, but on the other hand it has increased the demand for larger houses with a dedicated workspace and for homes in Tier-II and Tier-III cities due to reverse migration. The digitalisation has also fuelled growth of and investments in tech start-ups that means increased demand for office space. The co-working segment has also seen a marked increase in demand due to the flexi-work phenomenon. The real estate sector, and specifically the residential segment, which had been declining or stagnant for nearly a decade and more, therefore showed a significant growth during the reported financial

year. The 40% sales growth and the 41% growth in new launches, albeit from a low base, for the residential segment during the year may indicate a potential return to a secular growth trend. Similarly, the commercial segment ended the year with a 25% YOY increase in net absorption and 13% increase in new completions of office space in Q1 FY2021-22. Hence, the recovery in demand has been seen across the segments. The NCR region, where the Company has a major presence, is one of the highest growing markets in the country. However, the sector was hit hard by the increase in raw material and labour costs resulting in erosion of profitability. Over the financial year, steel prices increased by more than 50% and cement prices also went up substantially.

Your Company has also tracked with the sectoral growth trends and shown a jump of 24% increase in sales in FY2021-22. The Company delivered 3.1 million square feet of the area during the year and booked sales of 1.58 million square feet, a growth of 14.4% and -42.1% respectively over the previous year. The value of sale area was Rs. 1,266 crores, a decrease of 38.3% over Rs 2,051 crore sold in FY2020-21. The tier-II and III cities, such as Chandigarh, Lucknow, Faridabad, and Indore continued to the mainstay of Company’s excellent sales performance. In terms of break-up across segments, the Company sold 1.05 million square feet space in the residential segment and 0.53 million square feet of office and commercial space during the reported financial year. On the profitability front because of the skyrocketing raw material prices, the impact of Company’s sales growth and efficiency initiatives was diluted resulting in a continued loss at EBITDA level of Rs. 26.71 crores. This was, however, a reduction of 67% from the EBITDA loss of Rs.79.81 crores in FY2020-21 translating into a drop in % EBITDA loss from -15.5% to -4.2%. Your Company was also successful in

reducing the financing cost by 25% and depreciation by 26.5%. Loss for the period narrowed from Rs. 235.21 crores in FY2020-21 to Rs.161.61 crores in FY2021-22.

Given the sales momentum that has been achieved during the reporting period, the industry is expected to grow because of the underlying growth factors and positive macro-economic situation. However, with the continuing Russia-Ukraine war, the commodity inflation is unlikely to be arrested soon. In addition, the tightening monetary policies are driving up the cost of capital and reducing liquidity. These could also have a negative impact on the demand situation due to slowdown in economic growth. But your Company is prepared to address such challenges and achieve a return to

positive profitability in the coming year with its strategy of cost efficiency and Tier-II and Tier-III focus. We are well-placed to leverage the opportunities available in the market today because of our aligned positioning and strategies.

In the end, on behalf of the board, I would like to express our gratitude to all the stakeholders for the continued faith reposed in us. We are thankful to our investors, bankers, partners, suppliers, employees, and customers for their ongoing support. We wish success, cheer, and good health to all in the year ahead!

Best Regards,
Rohtas Goel

World Street featured in a mini-documentary film on the development of the city of Faridabad by the Municipal Corporation

Project Highlights

Omaxe Ltd has leased over one lakh sq ft of retail space in World Street, Faridabad in FY 21-22. A high-street format, inspired by the architecture of world renowned shopping streets like London, Amsterdam, Portugal and Hong Kong, Omaxe World Street will give the visitors the experience of an unconstrained space to spend a quality and fun time with friends and family.

Various local, domestic and international brands have already opened their stores in World Street, Faridabad. The property was also featured by The Municipal Corporation of Faridabad in their mini-documentary showcasing city's development. Omaxe has launched first-of-its-kind co-retail spaces in its multi-level parking-cum-commercial project in Chandni Chowk. It is an innovative model which will transform the Indian retail landscape. The project will go under fit-out soon.

New launches in this fiscal year

The company launched 0.91 million sq. ft. during the year 2021-22 in cities such as Lucknow, New Chandigarh and Faridabad out of which 0.51 million sq. ft. was sold of value of Rs 399 Cr.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMY

The Global economy had an expected bounce back in 2021 after the once-in-a-millennium pandemic tanked it badly in 2020. The recovery has not been a smooth upward curve across the board and parts of the world continue to be affected by long-term effects of the economic devastation that the pandemic left in its wake. Apart from the second and third waves of the pandemic that affected even greater numbers of people leading to loss of life and productivity, the continued disruption of supply chains combined with jump in consumption demand has led to spiralling of inflation in many countries. This prompted the central banks to consider raising the interest rates with the United States Federal Reserve raising the interest rates thrice, once in March 2022 by 25 basis points, the second time in May 2022 by 50 basis points and the third time in June 2022 by 75 basis points. It is expected that the Federal Reserve is likely to raise the rates by an aggressive 350 basis points over 2022. The long-drawn Russia - Ukraine conflict and re-emergence of COVID-19 in a big way in China have exacerbated the economic situation of the world economy with commodity prices skyrocketing and stress across supply chains. The global economy, which was expected to be bolstered from the second quarter onwards as the Omicron threat waned, is now experiencing major downside risks to the growth forecasts for 2022 that were released in the beginning of the year and before.

The economic output of the world, which went up by 6.1% in 2021 is now expected to increase by 3.2% on a YOY-basis in 2022 as per the IMF's July 2022 - World Economic Outlook projections. This revised projection is 120 basis points lower than the January 2022 expectations and 170 basis points lower than October 2021 ones. A major reason for this are the worse than expected slowdown in China (COVID-19 resurgence and lockdowns) and higher than expected inflation with IMF's inflation projections foresee an increase of 3.5% to 6.6% in Advanced Economies in 2022 and of 3.6% to 9.5% Emerging

Market and Developing Economies (EMDE). The IMF's GDP growth figures and projections for the major countries and economic groupings for the year 2021 and 2022 are captured in the table below.

Economy/ Grouping	2021 GDP Growth (A)	2022 GDP Growth (P)
Advanced Economies	5.2%	2.5%
United States	5.7%	2.3%
Euro Area	5.4%	2.6%
Japan	1.7%	1.7%
United Kingdom	7.4%	3.2%
EMDE	6.8%	3.6%
China	8.1%	3.3%
ASEAN-5	3.4%	5.3%
Russia	4.7%	-6.0%

INDIAN ECONOMY

India witnessed a sharp recovery in the economic activity once the COVID pandemic related restrictions were gradually lifted. While Q1 FY2021-22 did witness stringent lockdowns being imposed due to the severe second wave of the pandemic, Corporate India already had all the necessary coping mechanisms in place to manage the curbs. Even the massive third wave in Q4 FY2021-22 had a very limited impact. Indian economy which shrunk by 6.6% in FY2020-21, then grew by 8.7% in FY2021-22 in real terms as per the estimates released by the National Statistical Office (NSO) in May 2022 (Source: <https://pib.gov.in/PressReleasePage.aspx?PRID=1829784#:~:text=Nominal%20GDP%20or%20GDP%20at,growth%20rate%20of%2019.5%20percent.>). The Nominal GDP growth, i.e., on a current

price basis, was 19.5%. Construction sector grew by 11.5% in FY2021-22 after declining by 7.3% in the previous year. The Services activity showed the steepest spike after being affected the most during the pandemic. Manufacturing was nearly flat in FY2020-21 as the production activity resumed in the second half of the year, but with the demand rebounding, it also grew handsomely at a rate of 9.9% in FY2021-22. Agricultural growth broadly remained the same at 3.3% in FY2020-21 and 3.0% in FY2021-22.

The other key economic highlights for the year FY2021-22 were as follows:

- India regained its position of the fastest growing large economy in the world.
- India experienced an exports boom with the merchandise exports breaching the previous records and reaching US\$ 417.81 billion for the year.

The Current Account Deficit (CAD), however, went from a surplus of 0.9% in FY2020-21, when the

imports fell drastically due to the pandemic, to a deficit of 1.2% in FY2021-22 (Source: [https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=53906#:~:text=India's%20current%20account%20deficit%20\(CAD,net%20outgo%20of%20primary%20income.\)](https://www.rbi.org.in/Scripts/BS_PressReleaseDisplay.aspx?prid=53906#:~:text=India's%20current%20account%20deficit%20(CAD,net%20outgo%20of%20primary%20income.))).

Fiscal deficit for the year was higher than the forecast at 6.9%. FY2021-22 average Consumer Price Inflation for the year was 5.5% (Source: <https://www.livemint.com/economy/cpi-inflation-accelerates-to-a-17-month-high-in-march-11649777130513.html>).

The outlook for the FY2022-23 has turned bleak since the factors such as inflation-led return of hawkish monetary policies across the globe, prolonged Russia - Ukraine conflict and supply chain disruptions in China have raised prospects of a major slowdown in the global economy. India is also expected to be affected badly, especially because of the commodity price surges. The Reserve Bank of India has projected a much lower growth rate of 7.2% in FY2022-23.

With the inflation projected to be 6.7%, the projected nominal GDP growth will be 13.9% vs. 19.5% in FY2021-22 (Source: <https://www.hindustantimes.com/business/rbi-maintains-india-s-gdp-growth-estimate-at-7-2-for-2022-101654664381687.html>).

REAL ESTATE SECTOR

The Indian Real Estate sector is projected to grow to US\$ 1 trillion in market size by 2030 and US\$ 650 billion by 2025 from US\$ 200 billion in 2021. It is the second highest generator of employment after Agriculture sector and contributes 7% to the GDP. The Real Estate sectors contribution is set to go up to 10% by 2030. The industry can be divided into Housing, Commercial & Office, Hospitality and Other (logistics, co-living, industrial, etc.) segments.

The Real Estate rode high on end-user homebuying demand, low interest rates and conducive market conditions to see a stellar performance in the reported financial year. Even the second and third waves of the pandemic that hit during the year could not reverse the resurgence that began after the lockdown and restrictions were mostly withdrawn as the first wave neared completion. This resilience has been developed by the sector after experiencing major regulatory upheaval in the last one decade and the hit from pandemic during the first wave.

RESIDENTIAL

Annual Residential Segment Performance
 [Source: Multiple reports from Knight Frank Research. Link: <https://bit.ly/3j2ddrS>]

Period	FY2020-21	FY2021-22	Growth
Launches (‘000 Units)	166	235	41%
Sales (‘000 Units)	172	240	40%
Unsold Inventory (‘000 Units)	442	437	-1%

The rebound in Housing segment from the pandemic was quick and impressive. A set of factors contributed to this resurgence, well after a decade of slowdown. The low interest rate regime, subdued housing prices, emergence of Tier-II and Tier-III cities, and government incentives including interest rebates for affordable housing, stamp duty reductions, tax incentives and more. From a behavioural standpoint, the need for a larger house was felt acutely by everyone during the pandemic, which pushed people to consider using their savings to invest in a real estate asset. And the interesting aspect of this growth in housing segment is that it is largely driven by genuine buyers and not investors or speculators. New launches have also returned in

a big way and have kept pace with the sales growth. Hence, the unsold inventory has declined only marginally by 1% from 442 thousand units to 437 thousand units.

Among the key markets, NCR has bounced back in a big way with 65% YOY sales growth in 2021 and 123% YOY sales growth in Q1 2022. Bengaluru also showed impressive sales momentum with 61% growth in 2021 and 34% in Q1 2022. Among the smaller markets within the top 8, Hyderabad had stellar YOY sales growth of 142% in 2021 and Ahmedabad in Q1 2022 at 35%. Mumbai continued to be the largest residential market in terms of sales even though its contribution to the unit sales in Top 8 markets reduced from 33% in FY2020-21 to 25.4% in FY2021-22.

COMMERCIAL - OFFICE

Annual Office Segment Performance

Period	2020	2021	Variance
Net absorptions (million square feet)	39.4	38.1	-3%
New completions (million square feet)	35.5	38.7	9%
Vacancy (%)	15.5%	17.2%	1.7%

[Source: Multiple reports from Knight Frank Research. Link: <https://bit.ly/3j2ddrS>]

Period	Q1 2021	Q1 2022	Variance
Net absorptions (million square feet)	8.6	10.8	25%
New completions (million square feet)	10.5	11.9	13%

The effect of pandemic on the Office sector has waned gradually over the multiple waves and is now no longer a serious threat as most people are double vaccinated and restrictions on movement are practically nil. The Companies have gradually resumed work from office either completely or few days in a week. With the key segments such as BFSI, IT Services and Manufacturing experiencing fast paced growth, the demand for office spaces received a big boost. Co-working segment has been the fastest growing on account of the major investments pouring into the start-ups. Out of the total of 100 unicorn start-ups in India, 44 were born in 2021 and 14 in 2022 and together they were worth US\$ 93 billion and US\$ 19 billion. In terms of the geographical markets, Bengaluru, continued to be the largest market in 2021 and Q1 2022, however, there was no major surge in absorption of capacity. Markets such as NCR, Pune, and Hyderabad saw significant growth in this period in comparison to decline in other markets.

Key Strategies

The key to continued success of Omaxe is the consistent adherence to the following key strategies it has focused on with some minor adjustments in line with the market trends.

Strategic Land Acquisitions: Omaxe has always been ahead of the market in identifying and acquiring land parcels in potential growth locations before the competition. It was among the first to see the growth opportunity in Tier-II and Tier-III

Profit before tax: Consequently, the Company also generated a Profit before tax of Rs (-) 194.34 crores for the FY2021-22 as against a Rs (-) 304.64 crores PBT in FY 2020-21.

Profit after tax: Net Profit showed an improved performance with the loss of Rs 235.21 crores in FY2020-21 declining to a loss of Rs 161.61 crores during FY2021-22.

KEY CHANGES IN FINANCIAL RATIOS

The reasons that have impacted and led to a significant movement in financial ratios have been stated below for the information of the shareholders.

markets. Similarly, it built an impressive portfolio of unfancied micro-markets within big cities that later became much sought after. The early entrant position gave the Company a cost advantage over the competition, which has become a competitive advantage for the Company that it uses to beat the competition by offering comparatively lower prices or commanding a premium due to better location. At the same time, the Company believes in 'stop-loss' principle by disposing of those land parcels

that are a drain on its financials to ensure efficient allocation of capital to strategic assets.

Emphasis on Tier-II and Tier-III Cities: With a high-growth phase of the Indian economy over the last three decades, the economic prosperity has spread deeper in the country and is not limited to only the big cities. This has translated into bigger aspirations and demand for quality in Tier-II and Tier-III cities. Omaxe saw this transition much before the competition and entered these markets, which only had local unorganized players catering to them. With a superior quality and on-time delivery, the Company was successful in bettering the local players as the value proposition for the customers was obvious. Many parts of the Company's traditional markets continue to offer such opportunities that it can exploit in the foreseeable near future.

Diversified Product Mix: This strategy to address varied customer segments and consumer needs not only offer a wider canvas to the Company for generating growth, but they also help it weather a demand slump in a segment by diverting focus to others. Omaxe therefore caters to the real estate market with various products such as Residential, Commercial, Office, Hospitality, Integrated Townships, Hi-tech Townships, etc. The Company

studies the changing customer needs continuously to ensure it can adapt the product mix to address them better and earlier than the competition.

Focus on Customers and Quality Delivery: 'Customer First', Quality and On-time Delivery are an integral part of the Omaxe's value proposition. These values are ingrained and emphasized continuously to all the stakeholders of Omaxe's ecosystem to ensure best service and experience to its customers across all interfaces. The Company has adhered to all the customer friendly provisions of the RERA in letter and spirit where some of the norms were followed even before they were mandated under RERA. The Company's success has been built on these values since its inception. The Company intends to continue this focus and further build on it to ensure success going forward as 'reputation' and 'trust' are the most important factors for the customers.

Strong Balance Sheet: In addition to better operational performance, the Company manages the quality of its balance sheet through efficient capital allocation and timely servicing of debt. A clean balance sheet helps it secure capital at better-than-peer rates even under challenging environments creating a positive feedback loop of superlative performance.

OPPORTUNITIES

There exists an acute shortage of housing in urban areas with the existing number estimated to be ~10 million units. By 2030, an additional 25 million units of affordable housing are needed to shelter the growing urban population.

Tier-II and Tier-III cities will be the focal points in the growth of the real estate sector both from a Housing and Commercial segment perspective. The key trends that are fuelling this growth are the spurt in local economies due to re-migration, major infrastructure investments in these cities, industrial corridors, changing consumer behaviour and aspiration levels that match metros and ample availability of land and labour at a much lower cost. A key reflection of the growth potential of these cities can be seen in the fact that more than 45% of 61,000+ start-ups in India are in Tier-II and Tier-III cities.

Data centres are a key sub-segment within the Commercial & Office segment, which are seeing an increased demand. The demand for real estate space for data centres is projected to expand by 15-18 million square feet by 2025, as per a report from Savills India.

Organised Retail is another key segment within the Commercial & Office segment that has been and

can be a growth driver for a long time to come because even with a 15% CAGR from 2020 to 2025, the share vs unorganized retail will only jump from 12% to 18%. The real estate stock for Organized Retail is expected to increase by 28% to 82 million sq. ft. by 2023.

The infrastructure and Real Estate Investments Trusts (REIT) have improved the capital availability for the sector, specifically for the quality projects from reputed developers. As per the rating agency, ICRA, Indian real estate sector is likely to raise more than Rs 3.5 trillion (US\$ 48 billion) through this route in 2022, as compared to cumulative US\$ 29 billion raised till date.

Foreign Direct Investment (FDI) in Real Estate sector has been growing with Construction becoming the third largest sector in terms of FDI inflow.

THREATS, RISKS, AND CONCERNS

Increase in interest rates by the Reserve Bank of India to manage runaway inflation, can subdue the demand and increase the cost of capital.

With the central banks across the world reining in the liquidity, investments and capital availability may become a major concern going forward, especially from a cost perspective.

Ripple effects of global economic slowdown affecting economic growth in India that would in turn affect real estate demand.

Commodity inflation driving increase in raw material costs can exert a significant drag on the profitability of the sector.

INTERNAL CONTROL SYSTEMS

The Company has employed a professional Internal Audit team to conduct regular audits that check for compliance with set policies and procedures, and prevent any type of fraud, misappropriations, and unauthorized activities. It also updates these policies and procedures based on revised regulatory norms and to ensure adequacy in line with changing business environment. The overall systems and controls put in place by the Company ensure accurate and timely reporting of all financial transactions and projects.

The Company also ensures compliances to company law, listing and other applicable regulations. External auditors for statutory audits, and oversight of the audit committee of the Board

complete the comprehensive system of checks and balances.

HUMAN RESOURCES

Omaxe has always focused on the Human Capital as its biggest asset. Hence, it has invested time and resources in creating a conducive work environment, to develop a capable and motivated organization, and to ensure timely availability of workforce to ensure the Company can maintain its superior track record of delivery and operational performance. Team Omaxe is inspired and well-trained to provide an excellent customer experience and complete projects in a timely and cost-effective manner. The key management practices put in place by the Company to achieve the desired people goals are open communication channels, rewards and recognition, responsive performance management systems, and a robust grievance redressal process.

The Company ended the financial year on March 31, 2022, with a total strength of 468 committed employees on its rolls.

CORPORATE SOCIAL RESPONSIBILITY

As a responsible Corporate Citizen, the Company has been resolute in its social commitments towards the community as reflected in various initiatives that it has undertaken over the years. The Company puts its full strength behind these socio-economic development initiatives and its employees also contribute wholeheartedly with time and resources. At Omaxe, the Company conducts its CSR activities directly as well as indirectly through various Not-for-Profit Organizations.

The key themes and objectives of the Companies CSR initiatives over the years have been Education, Sustainability, Skill Development, Gender Parity, disaster Management (including rehabilitation, relief & reconstruction activities), Protection of National Heritage, Art & Culture and Social & Health Development. During the FY2021-22, Omaxe continued its CSR activities in disaster Management (including relief, rehabilitation & reconstruction activities) & Protection of National Heritage, Art & Culture.

In line with its vision, the company carried out the following initiatives in this fiscal year:

- Omaxe Foundation distributed tracksuits and masks at Govt Secondary School and Arya Kanya Gurukul
- Omaxe Foundation distributed masks and tracksuits to the children of construction workers
- COVID-19 relief related activities

OUTLOOK

The pandemic threat is behind, but the worsening geopolitical situation and inflation are casting a long shadow on the global and domestic economies. This may result in a sizeable impact on the demand scenario for the real estate sector. However, the momentum gained in 2021 and residual unfulfilled demand are likely to help deliver moderate growth during the year.

Some key trends forecasted by Knight Frank for the year 2022 are as follows:

5% increase in housing prices during the year. However, input cost escalations will continue to put pressure on the profitability.

The key consideration factors for the home buyer that have gained in importance are good air quality, green cover or proximity to it, and access to good healthcare.

Hiring trends in the IT sector indicate a significant increase in demand for office space from the IT industry.

The start-ups shall continue to flourish even in an environment where investment flows are likely to be restrained. Hence, growth of Co-working segment is likely to continue.

Demand for data centre capacity will increase manifold due to the data localisation norms and 5G rollout in 2022.

The Company is also well-poised to take advantage of these and other long-term trends. Its presence in the high-growth markets of NCR and projects focused on Tier-II and Tier-III cities make an attractive portfolio. In addition, Omaxe's well-diversified product portfolio means it can immensely benefit from the good prospects of both, Housing and Commercial-Office segments. The Company remains committed to delivering a superlative customer experience and leveraging the reputation and trust it has built over the years to accelerate its growth in tune with the market.

EXPLANATORY STATEMENT (PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013)

ITEM NO. 3: RE-APPOINTMENT OF M/S BSD & CO., CHARTERED ACCOUNTANTS AS STATUTORY AUDITORS AND FIXATION OF THEIR REMUNERATION

The Members of the Company at the 28th Annual General Meeting (AGM) had approved the appointment of M/s BSD & Co., Chartered Accountants (Firm Registration No. 000312S) as Statutory Auditors of the Company for a term of five consecutive years commencing from the conclusion of the 28th AGM till the conclusion of the 33rd AGM. In view of the same, the said term of M/S BSD & Co. will expire on the conclusion of this AGM.

Pursuant to the provisions of Section 139, Section 142 of the Companies Act, 2013 ("Act") and other applicable provisions of the Companies Act, 2013 read with the Rules made thereunder, the Company may appoint/re-appoint an audit firm as Statutory Auditors for not more than two terms of five consecutive years. Hence, M/s BSD & Co. may be re-appointed for a second term of five consecutive years.

M/s BSD & Co., Chartered Accountants, in their consent letter, have confirmed that they are eligible for re-appointment as Statutory Auditors of the Company under Section 139 of the Act and meet the criteria for re-appointment specified in Section 141 of the Act. Further, they have also confirmed that they are not disqualified from being re-appointed as Statutory Auditors under the applicable provisions of the Act and the rules or regulations made thereunder and proposed re-appointment, if made, shall be as per the terms provided under the provisions of the Act. After evaluating and considering various factors such as industry experience, competency of the audit team, efficiency in conduct of Audit, Independence, etc., the Board of Directors of the Company ("Board") has, based on the recommendation of the Audit Committee, proposed the reappointment of M/s BSD & Co., Chartered Accountants, for a second term of five consecutive years commencing from the conclusion of this Annual General Meeting till the conclusion of 38th Annual General Meeting to be held in the year 2027.

The disclosures pursuant to the provisions of Regulation 36(5) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are as mentioned below:

a) Proposed fees payable to Statutory Auditors: The details of proposed fees payable to the Statutory Auditors for the Financial Year 2022-23 shall be Rs. 0.20 Crores

III. OTHER INFORMATION:

Reason of loss or inadequate profits	The Financial Results for the FY 2021-22 were severely impacted due to the restricted lockdowns imposed by various state governments as a result of the second wave of COVID-19 pandemic. The profits of the Company may not be adequate due to COVID impact. Also, the future profitability would largely depend on the macroeconomic and geopolitical factors, unforeseen events & disruptions, legal regulations and the operating business environment. The Company is well-poised to take advantage of these and other long-term trends. Its presence in the high-growth markets of NCR and projects focused on Tier-II and Tier-III cities make an attractive portfolio. In addition, Omaxe's well-diversified product portfolio means it can immensely benefit from the good prospects of both, Housing and Commercial-Office segments. The Company remains committed to delivering a superlative customer experience and leveraging the reputation and trust it has built over the years to accelerate its growth in tune with the market.
Steps taken or proposed to be taken for improvement	
Expected increase in productivity and profits in measurable terms

OPERATIONS

Omaxe is a leading and reputed name in residential, commercial and mixed use properties in 8 states including Delhi, Uttar Pradesh, Punjab, Haryana, Madhya Pradesh, and Rajasthan among others. It has presence across 27 cities in these states. The Company caters to a varied segment of customers across the income-range with targeted offerings that address each segment's need. Its product portfolio consists of residential projects (affordable housing, group housing and premium apartments), integrated and hi-tech townships, office and commercial projects including malls, and others. The Company also provides construction contracting services.

Omaxe has delivered real estate projects over the years that are top-quality, diversified, and with an impeccable delivery track record. This has enabled the Company to be one of the leading names in the industry and perform better than the industry average over the years.

As on 31.03.2022, Omaxe has delivered 129.25 million square feet of construction, which comprised of 97.45 million square feet of own real estate projects and 31.8 million square feet of construction contracting services.

Over the FY2021-22, the Company completed delivery of 3.1 million square feet in comparison to 2.71 million square feet in the previous year. These deliveries were projects based in cities such as Chandigarh, Lucknow, Indore, Faridabad, Bahadurgarh, Noida/Greater Noida and Vrindavan.

The sale numbers achieved by the Company in FY2021-22 were 1.58 million square feet generating revenue of Rs 1,266 crores. The corresponding numbers in FY2020-21 were 2.73 million square feet and Rs 2,051 crores respectively. The break-up of these sales figures across residential and office and commercial segments is 66.5:33.5 in volume terms and 36.8:63.2 in value terms, respectively. The average realization numbers for the segments were Rs 4,443 per square feet and Rs 15,048 per square feet respectively translating into a

growth of 67.5% and decline of 51.9% respectively. Marquee projects of the Company that saw major sales were in Chandigarh, Lucknow, Faridabad, and others.

New Launches during FY2021-22

With the construction activity and demand environment showing a significant improvement, the Company also launched 0.91 million square feet over FY2021-22, a growth of 5.8% over the 0.86 million square feet of area launched in the previous financial year. These new launches were in cities such as Lucknow, New Chandigarh, and Faridabad. From the newly launched projects, the Company sold 0.51 million square feet of real estate at a value of Rs. 399 crores.

The group's net worth as of the end of FY2021-22 stood at Rs 1,244.96 crores.

OUTLOOK

The pandemic threat is behind, but the worsening geopolitical situation and inflation are casting a long shadow on the global and domestic economies. This may result in a sizeable impact on the demand scenario for the real estate sector. However, the momentum gained in 2021 and residual unfulfilled demand are likely to help deliver moderate growth during the year.

Some key trends forecasted by Knight Frank for the year 2022 are as follows:

- a. 5% increase in housing prices during the year. However, input cost escalations will continue to put pressure on the profitability.
- b. The key consideration factors for the home buyer that have gained in importance are good air quality, green cover or proximity to it, and access to good healthcare.
- c. Hiring trends in the IT sector indicate a significant increase in demand for office space from the IT industry.
- d. The start-ups shall continue to flourish even in an environment where investment flows are likely to be restrained. Hence, growth of Co-working segment is likely to continue.
- e. Demand for data center capacity will increase manifold due to the data localization norms and 5G rollout in 2022.

The Company is also well-poised to take advantage of these and other long-term trends. Its presence in the high-growth markets of NCR and projects focused on Tier-II and Tier-III cities make an attractive portfolio. In addition, Omaxe's well-diversified product portfolio means it can immensely benefit from the good prospects of both, Housing and Commercial-Office segments. The Company remains committed to delivering a superlative customer experience and leveraging the reputation and trust it has built over the years to accelerate its growth in tune with the market.

STANDALONE FINANCIAL STATEMENTS 2021-22

INDEPENDENT AUDITORS' REPORT

To The Members of Omaxe Limited

Report on the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Omaxe Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in Equity and the Statement of Cash Flows for the year then ended, and Notes to Standalone Financial Statement including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended and accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2022, its loss (including other comprehensive income/loss), changes in equity and its cash flows for the year then ended.

Basis for Opinion:

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the

Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to note 40 of the Financial Statements

During the year ended 31st March 2022, the Company was subjected to search under section 132 of the Income tax Act, 1961. Subsequent proceedings before investigation wing are under way. Tax liability, if any arising out of such proceedings shall be accounted in the financial year in which such demand is crystalized.

Our Opinion on the financial statement is not modified in respect of above matter.

Key Audit Matters

Key audit matters ("KAM") are those matters that, in our professional judgement, were of the most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to our emphasis of matters, we have determined the matters described below to be the key audit matters to be communicated in our report.

Description of Key Audit Matters

Sr. No.	Key Audit Matters	How that matter was addressed in our audit report
1	<p><u>Revenue Recognition</u></p> <p>The Company applies Ind AS 115 “Revenue from contracts with customers” for recognition of revenue from real estate projects, which is being recognised at a point in time upon the Company satisfying its performance obligations and the customer obtaining control of the underlying asset.</p> <p>Considering application of Ind AS 115 involves certain key judgment’s relating to identification of contracts with customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised over a period.</p> <p>Additionally, Ind AS 115 contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.</p> <p>Refer Note 27 to the standalone financial statements</p>	<p>Our audit procedure on revenue recognition from real estate projects included:</p> <p>Selecting sample to identify contracts with customers, identifying separate performance obligation in the contracts, determination of transaction price and allocating the transaction price to separate performance obligation.</p> <p>On selected samples, we tested that the revenue recognition is in accordance with accounting standards by</p> <ul style="list-style-type: none"> i) Reading, analyzing and identifying the distinct performance obligations in real estate projects. ii) Comparing distinct performance obligations with that identified and recorded. iii) Reading terms of agreement to determine transaction price including variable consideration to verify transaction price used to recognize revenue. iv) Performing, analytical procedures to verify reasonableness of revenue accounted by the Company.
2	<p><u>Pending Income Tax Cases</u></p> <p>The Company has various pending income tax cases involving tax demands which involves significant judgment to determine possible outcome of these cases.</p> <p>Refer Notes 37, 39 and 40 to the standalone financial statements</p>	<p>We obtained details of all pending income tax matters involving tax demands on the Company and discussed with the Company’s in house tax team regarding sustainability of Company’s claim before various income tax/ appellate authorities on matters under litigation. The in-house tax team of the company relied upon past legal and other rulings; submissions made by them during various hearings held; which was taken in consideration by us to evaluate management position on these tax demands.</p>
3	<p><u>Liability for Non-performance of real estate agreements/ civil lawsuits against the Company</u></p> <p>The Company may be liable to pay damages/ interest for specific non- performance of certain real estate agreements, civil cases preferred against the Company for specific performance of the land agreement, the liability on account of these, if any has not been estimated and disclosed as contingent liability.</p> <p>Refer Note 37 to the standalone financial statements</p>	<p>We obtained details/ list of pending civil cases and reviewed on sample basis real estate agreements, to ascertain damages on account of non-performance of those agreements and discussed with the legal team of the Company to evaluate management position.</p>

Sr. No.	Key Audit Matters	How that matter was addressed in our audit report
4	<p><u>Inventories</u></p> <p>The company's inventories comprise mainly of projects under construction/development (projects-in-progress) completed real estate projects and land.</p> <p>The inventories are carried at lower of cost and net realizable value (NRV). NRV of completed property is assessed by reference to market price existing at the reporting date and based on comparable transactions made by the company and/or identified by the company for properties in same geographical area. NRV of properties under construction is assessed with reference to market value of completed property as at the reporting date less estimated cost to complete.</p> <p>The carrying value of inventories is significant part of the total assets of the company and involves significant estimates and judgments in assessment of NRV. Accordingly, it has been considered as key audit matter.</p>	<p>Our audit procedures to assess the net realizable value (NRV) of the inventories include the following:</p> <p>We had discussions with Management to understand Management's process and methodology to estimate NRV, including key assumptions used and we also verified project wise un-sold area and recent sale prices and estimated cost of construction to complete projects.</p>
5	<p><u>Recognition and measurement of Deferred Tax Assets</u></p> <p>Under Ind AS, the company is required to reassess recognition of deferred tax asset at each reporting date. The company has deferred tax assets in respect of brought forward losses and other temporary differences, as set out in Note no 6 and 35 to the standalone financial statements.</p> <p>The company's deferred tax assets in respect of brought forward business losses are based on the projected profitability. This is determined on the basis of significant management judgement and estimation given that is based on assumptions such as the likely timing and level of future taxable profits which are affected by expected future market and economic conditions.</p> <p>We have identified recognition of deferred tax assets as key audit matter because of the related complexity and subjectivity of the assessment process.</p>	<p>Our Audit procedures include:</p> <ul style="list-style-type: none"> i) Obtained an understanding of the process and tested the control over recording of deferred tax and review of deferred tax at each reporting date ii) Evaluated management assumptions, used to determine the probability that deferred tax assets recognised in the balance sheet will be recovered through taxable income in future years, by handing over of major real estate projects. iii) Tested the computations of amount and tax rate used for recognition of deferred tax assets. iv) We have also focused on the adequacy of company's disclosure on deferred tax.
6	<p><u>Related Party Transactions</u></p> <p>The company has undertaken transactions with its related parties in the ordinary course of business at arm's length. These include making new or additional investments in its subsidiaries, project management services, lending loans or advances to related parties, sales or purchases of fixed assets or building material to and from related parties etc. as disclosed in note 50 to the standalone financial statements.</p> <p>We identified the accuracy and completeness of the related party transactions and its disclosure as set out in respective notes to the financial statements as a key audit matter due to the significance of transactions with related parties and regulatory compliances thereon during the year ended 31st March 2022.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> i) Obtained and read the Company's policies and procedures in respect of identifying related parties, obtaining approval, recording and disclosure of related party transactions. ii) Read minutes of shareholder meetings, board meetings and minutes of meetings of those charged with governance in connection with Company's assessment of related party transactions being in the ordinary course of business at arm's length. iii) Tested, related party transactions with the underlying contracts, confirmation letters and other supporting documents. iv) Agreed the related party information disclosed in the financial statements with the underlying supporting documents, on a sample basis.

Other Information

The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Results

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's

ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material

uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of section 143 (11) of the Act, as stated in the 'Other Matter' paragraph we give in the "Annexure I" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income/loss), the Statement of Cash Flow and the Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on 31st March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure-II". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid to all the other directors is within the limits approved, however remuneration paid to the Chairman and Whole Time Director in view of losses is either to be recovered or waived off by the shareholders.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements- Refer note 37 to the standalone financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The company has not declared and paid any dividend during the year.

under the Income Tax Act, 1961, as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

- IX. (a) According to the records of the Company examined by us and the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender as at the balance sheet date.
- (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared willful defaulter by any bank or financial institution.
- (c) In our opinion, and according to the information and explanations given to us, the term loans have been applied for the purpose for which they were obtained.
- (d) According to the information and explanations given to us and the procedures performed by us and on an overall examination of the financial statements of the company, we report that no funds raised on short term basis have been used for long-term purposes by the company.
- (e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (f) According to the information and explanations

given to us and the procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

- X. (a) The Company has not raised any money during the year by way of initial public offer or further public offer (including debt instruments) during the year. Hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- XI. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have been informed of any such case by the Management.
- (b) During the year, no report under section 143(12) of the Companies Act, 2013 has been filed by cost auditor, secretarial auditor or by us in form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

- (c) As represented to us by the Management, there are no whistle-blower complaints received by the Company during the year.
- XII. The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clauses 3(xii) (a),(b) and (c) of the Order is not applicable to the Company.
- XIII. According to the information and explanations given to us, all transactions with the related parties are in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable and the details have been disclosed in the notes to the standalone financial statements, as required by the applicable accounting standards.
- XIV. (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- XV. Annexure II - Referred to in paragraph 2(f) under the heading “Report on Other Legal and Regulatory Requirements” section of our report to the Members of Omaxe Limited of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Omaxe Limited** («the Company») as at 31st March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit

evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that:

- (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (b) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the

internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.

A Significant Accounting Policies:

1 Corporate information

Omaxe Limited ("The Company") is a listed entity incorporated in India. Registered address of the Company is 19-B, First Floor, Omaxe Celebration Mall, Sohna Road, Gurgaon-122001, (Haryana) and Corporate Office is 7, LSC, Kalkaji, New Delhi-110019.

The company is into the business of developing real estate properties for residential, commercial and retail purposes.

2 Significant Accounting Policies :

(i) Basis of Preparation

The standalone financial statements of the Company have been prepared in accordance with the Companies (Indian Accounting Standards) Rules 2015 ('INDAS') issued by Ministry of Corporate Affairs ('MCA').

The financial statements for the year ended 31 March 2022 were authorised and approved for issue by the Board of Directors on 30th May, 2022.

(ii) Revenue Recognition

The Company follows IND AS 115 for revenue recognised

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers.

(a) Real estate projects

The company derives revenue from execution of real estate projects. Revenue from Real Estate project is recognised in accordance with INDAS 115 which establishes a comprehensive framework in determining whether how much and when revenue is to be recognised. Revenue from real estate projects are recognised upon transfer of control of promised real estate property to customer at an amount that reflects the consideration which the company expects to receive in exchange for such booking and is based on following 6 steps :

1. Identification of contract with customers:-

The company accounts for contract with a customer only when all the following criteria are met:

- Parties (i.e. the company and the customer) to the contract have approved the contract (in writing,

orally or in accordance with business practices) and are committed to perform their respective obligations.

- The company can identify each customer's right regarding the goods or services to be transferred.
- The company can identify the payment terms for the goods or services to be transferred.
- The contract has commercial substance (i.e. risk, timing or amount of the company's future cash flow is expected to change as a result of the contract) and
- It is probable that the company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. Consideration may not be the same due to discount rate etc.

2. Identify the separate performance obligation in the contract:-

Performance obligation is a promise to transfer to a customer:

- Goods or services or a bundle of goods or services i.e. distinct or a series of goods or services that are substantially the same and are transferred in the same way.
- If a promise to transfer goods or services is not distinct from goods or services in a contract, then the goods or services are combined in a single performance obligation.
- The goods or services that is promised to a customer is distinct if both the following criteria are met:
 - The customer can benefit from the goods or services either on its own or together with resources that are readily available to the customer (i.e. the goods or services are capable of being distinct) and
 - The company's promise to transfer the goods or services to the customer is separately identifiable from the other promises in the contract i.e the goods or services are distinct within the context of the contract.

3 Satisfaction of the performance obligation:-

The company recognizes revenue when (or as) the company satisfies a performance obligation by transferring a promised goods or services to the customer.

The real estate properties are transferred when (or as) the customer obtains control of the property.

4 Determination of transaction price:-

The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods or services to customer excluding GST.

The consideration promised in a contract with a customer may include fixed amount, variable amount or both. In determining transaction price, the company assumes that goods or services will be transferred to the customer as promised in accordance with the existing contract and the contract can't be cancelled, renewed or modified.

5 Allocating the transaction price to the performance obligation:-

The allocation of the total contract price to various performance obligation are done based on their standalone selling prices, the stand alone selling price is the price at which the company would sell promised goods or services separately to the customers.

6 Recognition of revenue when (or as) the company satisfies a performance obligation:

Performance obligation is satisfied over time or at a point in time

Performance obligation is satisfied over time if one of the criteria out of the following three is met:

- The customer simultaneously receives and consumes a benefit provided by the company's performance as the company performs.
- The company's performance creates or enhances an asset that a customer controls as asset is created or enhanced or
- The company's performance doesn't

create an asset within an alternative use to the company and the company has an enforceable right to payment for performance completed to date.

Therefore the revenue recognition for a performance obligation is done over time if one of the criteria is met out of the above three else revenue recognition for a performance obligation is done at point in time.

The company disaggregates revenue from real estate projects on the basis of nature of revenue.

(b) Project Management Fee

Project Management fee is accounted as revenue upon satisfaction of performance obligation as per agreed terms.

(c) Interest Income

Interest due on delayed payments by customers is accounted on accrual basis.

(d) Income from trading sales

Revenue from trading activities is accounted as revenue upon satisfaction of performance obligation.

(e) Dividend income

Dividend income is recognized when the right to receive the payment is established.

(iii) Borrowing Costs

Borrowing cost that are directly attributable to the acquisition or construction of a qualifying asset (including real estate projects) are considered as part of the cost of the asset/project. All other borrowing costs are treated as period cost and charged to the statement of profit and loss in the year in which incurred.

(iv) Property, Plant and Equipment**Recognition and initial measurement**

Properties, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated

with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on Property, Plant and Equipment is provided on written down value method based on the useful life of the asset as specified in Schedule II to the Companies Act, 2013. The management estimates the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in the case of steel shuttering and scaffolding, whose life is estimated as five years considering obsolescence.

Cost of building constructed on land owned by third party under 'Build Own Transfer' agreement is amortized over the period of the agreement.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

(v) Intangible Assets

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortization and useful lives)

Intangible assets comprising of ERP & other computer software are stated at cost of acquisition less accumulated amortization and are amortised over a period of four years on straight line method.

(vi) Impairment of Non-Financial Assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying

amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.

(vii) Financial Instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs

Subsequent measurement

(1) Financial instruments at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All other debt instruments are measured at Fair Value through other comprehensive income or Fair value through profit and loss based on Company's business model.

- (2) Equity investments – All equity investments in scope of INDAS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.
- (3) Mutual funds – All mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

(b) Financial liabilities**Initial recognition and measurement**

All financial liabilities are recognised initially at fair value and transaction cost that are attributable to the acquisition of the financial liabilities are also adjusted. These liabilities are carried at as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings and deposits.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or on the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(c) Compound financial instrument

Compound financial instrument are separated into liability and equity components based on the terms of the contract. On issuance of the said instrument, the liability component is arrived by discounting the gross sum at a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost until it is extinguished on conversion or redemption. The remainder of the proceeds is recognised as equity component of compound financial instrument. This is recognised and included in shareholders' equity, net of Income tax effects, and not subsequently re-measured.

(d) Financial guarantee contracts

Financial guarantee contracts are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because

the specified party fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of expected loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortization.

(e) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 47 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by INDAS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(f) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(viii) Fair value measurement

Fair value is the price that would be received to sell as asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants

act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs:

- Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfer have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosure, the Company has determined classes of assets and liabilities on the basis of nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(ix) Inventories and Projects in progress

(a) Inventories

- (i) Building material and consumable stores are valued at lower of cost and net realisable value. Cost is determined on the basis of the 'First in First out' method.
- (ii) Land is valued at lower of cost and net realisable value. Cost is determined on average method. Cost includes cost of acquisition and all related costs.
- (iii) Construction work in progress is valued at lower of cost and net realisable value. Cost includes cost of materials, services and other related overheads related to project

under construction.

- (iv) Completed real estate project for sale is valued at lower of cost and net realizable value. Cost includes cost of land, materials, construction, services and other related overheads.
- (v) Stock in trade is valued at lower of cost and net realisable value.

(b) Projects in progress

Projects in progress are valued at lower of cost and net realisable value. Cost includes cost of land, development rights, materials, construction, services, borrowing costs and other overheads relating to projects.

(x) Foreign currency translation

(a) Functional and presentation currency

The financial statements are presented in currency INR, which is also the functional currency of the Company and presented in Crore.

(b) Foreign currency transactions and balances

- i. Foreign currency transactions are recorded at exchange rates prevailing on the date of respective transactions.
- ii. Financial assets and financial liabilities in foreign currencies existing at balance sheet date are translated at year-end rates.
- iii. Foreign currency translation differences related to acquisition of imported fixed assets are adjusted in the carrying amount of the related fixed assets. All other foreign currency gain and losses are recognised in the statement of profit and loss.

(xi) Retirement benefits

- i. Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employee state insurance are charged to the statement of profit and loss.
- ii. The Company is having Group Gratuity Scheme with Life Insurance Corporation of India. Provision for gratuity is made based on actuarial valuation in accordance with INDAS-19.
- iii. Provision for leave encashment in respect of unavailed leave standing to the credit of employees is made on actuarial basis in accordance with INDAS-19.

- iv. Actuarial gains/loss resulting from re-measurement of the liability/asset are included in other comprehensive income.

(xii) Provisions, contingent assets and contingent liabilities

A provision is recognized when:

- the Company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

(xiii) Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(xiv) Leases

The company has applied INDAS 116 w.e.f 01.04.2019. In accordance with INDAS 116, the company recognises right of use assets representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of right of use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before commencement date less any lease incentive received plus any initial direct cost incurred and an estimate of cost to be incurred by lessee in dismantling and removing underlying asset or restoring the underlying asset or site on which it is located. The right of use asset is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any, and adjusted for any re-measurement of lease liability. The right of use assets is depreciated using the Straight Line Method from the commencement

date over the charter of lease term or useful life of right of use asset. The estimated useful life of right of use assets are determined on the same basis as those of Property, Plant and Equipment. Right of use asset are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in Statement of Profit and Loss.

The company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate.

The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modification or to reflect revised-in-substance fixed lease payments. The company recognises amount of re-measurement of lease liability due to modification as an adjustment to write off use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of right of use assets is reduced to zero and there is further reduction in measurement of lease liability, the company recognises any remaining amount of the re-measurement in Statement of Profit and Loss.

The company has elected not to apply the requirements of INDAS 116 to short term leases of all assets that have a lease term of 12 months or less unless renewable on long term basis and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense over lease term.

(xv) Income Taxes

- i. Provision for current tax is made based on the tax payable under the Income Tax Act, 1961. Current income tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity).
- ii. Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been

enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

(xvi) Cash and Cash Equivalent

Cash and Cash equivalent in the balance sheet comprises cash at bank and cash on hand, demand deposits and short term deposits which are subject to an insignificant change in value. The amendment to INDAS-7 requires entities to provide disclosure of change in the liabilities arising from financing activities, including both changes arising from cash flows and non cash changes (such as foreign exchange gain or loss). The Company has provided information for both current and comparative period in cash flow statement.

(xvii) Significant management judgement in applying accounting policies and estimation of uncertainty

(a) Significant management judgements

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

(b) Estimation of uncertainty related to Global Health Pandemic from COVID-19

The company has assessed the possible effect that may result from pandemic relating to COVID-19 on carrying amount of receivables, inventory, investments, advances and other assets & liabilities. In considering the assessment, the company has considered internal information and is highly dependent on estimates and circumstances as they evolve.

(c) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

(d) Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

(e) Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions

such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

(f) Provisions

At each balance sheet date based on management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However the actual future outcome may be different from this judgement.

(g) Inventories

Inventory is stated at the lower of cost or net realisable value (NRV).

NRV for completed inventory is assessed including but not limited to market conditions and prices existing at the reporting date and is determined by the Company based on net amount that it expects to realise from the sale of inventory in the ordinary course of business.

NRV in respect of inventories under construction is assessed with reference to market prices (by referring to expected or recent selling price) at the reporting date less estimated costs to complete the construction, and estimated cost necessary to make the sale. The costs to complete the construction are estimated by management.

(h) Lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of INDAS 116. Identification of a lease requires significant judgement. The company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The company determines the lease term as the non-cancellable period of lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the company is reasonably certain not to exercise that option. In exercise whether the company is reasonably certain to exercise an option to extend a lease or to exercise an option to terminate the lease, it considers all relevant facts and circumstances that create an economic incentive for the company to exercise the option to extend the

lease or to exercise the option to terminate the lease. The company revises lease term, if there is change in non-cancellable period of lease. The discount rate used is generally based on incremental borrowing rate.

(i) Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument / assets. Management

bases its assumptions on observable data as far as possible but this may not always be available. In that case Management uses the best relevant information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(j) Classification of assets and liabilities into current and non-current

The Management classifies assets and liabilities into current and non-current categories based on its operating cycle.

Note 43: EMPLOYEE BENEFIT OBLIGATIONS

1) Post-Employment Obligations – Gratuity

The Company provides gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees' last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service. For the funded plan the Company makes contributions to recognised funds in India. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the Financial Statement and the movements in the net defined benefit obligation over the year are as follows:

For short term financial assets and liabilities carried at amortized cost, the carrying value is reasonable approximation of fair value.

Note 47: RISK MANAGEMENT

'The Company's activities expose it to market risk, liquidity risk and credit risk. The management has the overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Credit risk

Credit risk is the risk that counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

Credit risk management

Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk on financial reporting date

B: Moderate credit risk

C: High credit risk

The Company provides for expected credit loss based on the following:

Credit risk	Basis of categorization	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances and investment	12 month expected credit loss
Moderate credit risk	Trade receivables and other financial assets	Life time expected credit loss or 12 month expected credit loss

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in the statement of profit and loss.

(Rupees in Crore)

Credit rating	Particulars	As at 31 March 2022	As at 31 March 2021
A: Low credit risk	Cash and cash equivalents, other bank balances and investment	506.96	486.77
B: Moderate credit risk	Trade receivables and other financial assets	1,936.49	2,070.47

Concentration of trade receivables

Trade receivables consist of a large number of customers spread across various states in India with no significant concentration of credit risk. The company do not envisage any financial difficulties resulting in higher credit risk higher than usual credit term due to COVID 19 outbreak.

Credit risk exposure

Provision for expected credit losses

The Company provides for 12 month expected credit losses for following financial assets –

As at 31 March 2022

(Rupees in Crore)

Other Receivables	7.80	3.51	4.29
Total	2,097.91	27.44	2,070.47

The Company considers provision for lifetime expected credit loss for trade receivables, loans and advances given. Given the nature of business operations, the Company's receivables from real estate business has little history of losses as transfer of legal title of properties sold is generally passed on to the customer, once the Company receives the entire consideration. Advances are given for purchase of land and for other goods and services. Therefore trade receivables and advances given have been considered as moderate credit risk financial assets.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Note 49: The outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The management of the Company have made its own assessment of impact of the outbreak of COVID-19 on business operations of the Company and have concluded that no adjustments are required to be made in the financial statement as it does not impact current financial year. However, the situation with COVID-19 is still evolving. Also the various preventive measures taken by Government of India are still in force leading to highly uncertain economic environment. Due to these circumstances, the management's assessment of the impact on the subsequent period is dependent upon the circumstances as they evolve. The Company continues to monitor the impact of COVID-19 on its business including its impact on customer, associates, contractors, vendors etc.

Note 52: STANDARDS ISSUED AND AMENDED BUT NOT EFFECTIVE

The Ministry of Corporate Affairs (MCA) notifies new Indian Accounting Standards or amendments to the existing standards under companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the companies (Indian Accounting Standards) Amendment Rules, 2022 as below.

IND AS 16-Property Plant and equipment- The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any shall not be recognized in the profit and loss but deducted from the directly attributable costs considered as part of cost of an item of property plant and equipment. The effective date for adoption of this amendment is annual period beginning on or after April 1, 2022. The company has evaluated the amendment and there is no impact on its standalone financial statements.

IND AS 37-Provisions, Contingent Liabilities and Contingent Assets- The amendment specifies that cost fulfilling a 'contract comprises costs that relate directly to the contractor'. Cost that relate directly to a contract can either be incremental costs of fulfilling the contract (example would be direct materials, labour) or an allocation of other costs that relate directly to fulfilling contracts (example would be allocation of depreciation charge for an item of property plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022 although early adoption is permitted. The company has evaluated the amendment and there is no impact on company standalone financials.

Note 53: The Previous year figures have been regrouped/ reclassified, wherever necessary, to make them comparable with current year figures.

The notes referred to above form an integral part of standalone financial statements.

Opinion

We have audited the accompanying consolidated financial statements of **Omaxe Limited** ("the Holding Company"), its subsidiaries, limited liability partnership (collectively referred to as "the Group") and its associates comprising of the Consolidated Balance Sheet as at 31st March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow for the year then ended, and Notes to Consolidated Financial Statements including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2022, of its consolidated loss after tax and other comprehensive income, consolidated changes in equity and consolidated cash flows and of its associates for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We are independent of the Group and of its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of unaudited management certified financial statements referred to in "Other Matters" is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to note no. 40 to Consolidated Financial statements.

During the year ended 31st March 2022, the Group (Omaxe Limited and Two of its Subsidiary companies) was subjected to search under section 132 of the Income Tax Act, 1961. Subsequent proceedings before investigation wing are under way. Tax liability, if any arising out of such proceedings shall be accounted for in the financial year in which such demand is crystalized.

Our Opinion on the financial statement is not modified in respect of above matter.

Key Audit Matters

Key audit matters ("KAM") are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to our emphasis of matters, we have determined the matters described below to be the key audit matters to be communicated in our report.

Description of key Audit Matters

Sr. No.	Key Audit Matters	How that matter was addressed in our audit report
1	<p><u>Revenue recognition</u></p> <p>The Group applies Ind AS 115 “Revenue from contracts with customers” for recognition of revenue from real estate projects, which is being recognized at a point in time upon the Company satisfying its performance obligations and the customer obtaining control of the underlying asset.</p> <p>Considering application of Ind AS 115 involves certain key judgment’s relating to identification of contracts with customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised over a period.</p> <p>Additionally, Ind AS 115 contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date</p> <p>Refer Notes 27 to the Consolidated Financial Statements</p>	<p>Our audit procedure on revenue recognition from real estate projects included:</p> <p>Selecting sample to identify contracts with customers, identifying separate performance obligation in the contracts, determination of transaction price and allocating the transaction price to separate performance obligation.</p> <p>On selected samples, we tested that the revenue recognition is in accordance with accounting standards by</p> <ul style="list-style-type: none"> i) Reading, analyzing and identifying the distinct performance obligations in real estate projects. ii) Comparing distinct performance obligations with that identified and recorded. iii) Reading terms of agreement to determine transaction price including variable consideration to verify transaction price used to recognize revenue. iv) Performing, analytical procedures to verify reasonableness of revenue accounted by the Company.
2	<p><u>Pending Income Tax cases</u></p> <p>The Group has various pending income tax cases involving tax demands which involves significant judgment to determine possible outcome of these cases.</p> <p>Refer Notes 37 and 39 to the Consolidated Financial Statements</p>	<p>We obtained details of all pending income tax matters involving tax demands on the Group and discussed with the Group’s in house tax team regarding sustainability of Group’s claim before various income tax/ appellate authorities on matters under litigation. The in-house tax team of the Group relied upon past legal and other rulings; submissions made by them during various hearings held; which was taken in consideration by us to evaluate management position on these tax demands.</p>
3	<p><u>Liability for Non-performance of real estate agreements/ civil law suits against the Group</u></p> <p>The Group may be liable to pay damages/ interest for specific non- performance of certain real estate agreements, civil cases preferred against the Group for specific performance of the land agreement, the liability on account of these, if any has not been estimated and disclosed as contingent liability.</p> <p>Refer Notes 37 to the Consolidated Financial Statements</p>	<p>We obtained details/ list of pending civil cases and reviewed on sample basis real estate agreements, to ascertain damages on account of non-performance of those agreements and discussed with the legal team of the Group to evaluate management position.</p>

Sr. No.	Key Audit Matters	How that matter was addressed in our audit report
4	<p><u>Inventories</u></p> <p>The Group's inventories comprise mainly of projects under construction/development (projects-in-progress) completed real estate projects and land.</p> <p>The inventories are carried at lower of cost and net realizable value (NRV). NRV of completed property is assessed by reference to market price existing at the reporting date and based on comparable transactions made by the Group and/or identified by the Group for properties in same geographical area. NRV of properties under construction is assessed with reference to market value of completed property as at the reporting date less estimated cost to complete.</p> <p>The carrying value of inventories is significant part of the total assets of the Group and involves significant estimates and judgments in assessment of NRV. Accordingly, it has been considered as key audit matter.</p>	<p>Our audit procedures to assess the net realizable value (NRV) of the inventories include the following:</p> <p>We had discussions with Management to understand Management's process and methodology to estimate NRV, including key assumptions used and we also verified project wise un-sold area and recent sale prices and estimated cost of construction to complete projects.</p>
5	<p><u>Recognition and measurement of deferred tax assets</u></p> <p>Under Ind AS, the Group is required to reassess recognition of deferred tax asset at each reporting date. The Group has deferred tax assets in respect of brought forward losses and other temporary differences, as set out in Note no 6 and 35 to the consolidated financial statements.</p> <p>The Group's deferred tax assets in respect of brought forward business losses are based on the projected profitability. This is determined on the basis of significant management judgement and estimation given that is based on assumptions such as the likely timing and level of future taxable profits which are affected by expected future market and economic conditions.</p> <p>We have identified recognition of deferred tax assets as key audit matter because of the related complexity and subjectivity of the assessment process.</p>	<p>Our Audit procedures include:</p> <ul style="list-style-type: none"> i) Obtained an understanding of the process and tested the control over recording of deferred tax and review of deferred tax at each reporting date ii) Evaluated management assumptions, used to determine the probability that deferred tax assets recognised in the balance sheet will be recovered through taxable income in future years, by handing over of major real estate projects. iii) Tested the computations of amount and tax rate used for recognition of deferred tax assets. iv) We have also focused on the adequacy of company's disclosure on deferred tax.

Other information

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group and of its associates in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) amendment Rules, 2016. The respective Board of Directors of the Companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and of its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring

the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the entities included in the Group and of its associates are responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group and of its associates are responsible for overseeing the financial reporting process of the Group and of its associates.

Auditor's Responsibilities for the Audit of the Consolidated Financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls

relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and subsidiary companies which are companies incorporated in India has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and of its associates of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditor. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified

misstatements in the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements and other financial information in respect of 148 subsidiary companies, included in the statement, whose financial statements includes total assets of Rs. 78.30 crores as at 31st March 2022, total revenues (including other income) of Rs. 17.11 crores for the year ended 31st March 2022 and net cash flows amounting to Rs. (0.44) crores for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, are based solely on such unaudited financial statements as certified. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and

our report on Other Legal and Regulatory Requirements below, is not modified in respect of above matter with respect to our reliance on financial statements as certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

Annexure I- Referred to in paragraph 1(f) under the heading “Report on Other Legal and Regulatory Requirements” section of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of Omaxe Limited (“the Holding Company”) as of and for the year ended 31st March 2022, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies which are incorporated in India as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) . These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit

evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls systems over financial reporting of the company and its subsidiary companies which are companies incorporated in India and its associates.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of

compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Group has, in all material respects, an adequate internal financial controls system over financial reporting but requires more strengthening and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Group consisting the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on

the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to consolidated financial statements of 148 subsidiary/group companies which are companies incorporated in India, is based on the financial statements as certified by the Management.

A Significant Accounting Policies:

1 Corporate information

Omaxe Limited (“The Company”) and its subsidiaries (collectively referred to as “Group”) are mainly into the business of developing real estate properties for residential, commercial and retail purposes. The shares of the Company are listed on the National Stock Exchange and the Bombay Stock Exchange. The registered office of the Company is at Shop No. 19-B, First Floor, Omaxe Celebration Mall, Sohna Road, Gurgaon, Haryana-122001.

2 Significant Accounting Policies:

(i) Basis of Preparation

The financial statements of the Group have been prepared in accordance with the Companies (Indian Accounting Standards) Rules 2015 (‘INDAS’) issued by Ministry of Corporate Affairs (‘MCA’).

The financial statements for the year ended 31 March 2022 were authorised and approved for issue by the Board of Directors on 30th May, 2022..

(ii) Basis of Consolidation

The consolidated financial statements relates to Omaxe Limited (‘the Company’) and its subsidiary companies and associates. The consolidated financial statements have been prepared on the following basis:

- (a) The financial statements of the Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.
- (b) Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant & equipment, are eliminated in full.
- (c) Where the cost of the investment is higher/ lower than the share of equity in the subsidiary / associates at the time of acquisition, the resulting difference is disclosed as goodwill/ capital reserve in the investment schedule. The said Goodwill is not amortised, however, it is tested for impairment at each Balance Sheet date and the impairment loss, if any, is provided

for in the consolidated statement of profit and loss.

- (d) In case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in the consolidated statement of profit and loss.
- (e) Offset (eliminate) the carrying amount of the parent’s investment in each subsidiary and the parent’s portion of equity of each subsidiary.
- (f) The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as on the date of disposal is recognised in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- (g) Non Controlling Interest’s share of profit / loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- (h) Non Controlling Interest’s share of net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separate from liabilities and the equity of the Company’s shareholders.
- (i) Investment in Associates has been accounted under the equity method as per INDAS 28 - Investments in Associates and Joint Ventures.
- (j) The Company accounts for its share of post-acquisition changes in net assets of associates, after eliminating unrealised profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its Consolidated Statement of Profit and Loss, to the extent such change is attributable to the associates’ Statement of Profit and Loss and through its reserves for the balance based on available information.

(iii) Revenue Recognition

The company follows IND AS 115 for revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers.

(a) Real estate projects

The company derives revenue from execution of real estate projects. Revenue from real estate projects are recognised upon transfer of control of promised real estate property to customer at an amount that reflects the consideration which the company expects to receive in exchange for such booking and is based on following 6 steps :

1. Identification of contract with customers:-

The company accounts for contract with a customer only when all the following criteria are met:

- Parties (i.e. the company and the customer) to the contract have approved the contract (in writing, orally or in accordance with business practices) and are committed to perform their respective obligations.
- The company can identify each customer's right regarding the goods or services to be transferred.
- The company can identify the payment terms for the goods or services to be transferred.
- The contract has commercial substance (i.e. risk, timing or amount of the company's future cash flow is expected to change as a result of the contract) and
- It is probable that the company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. Consideration may not be the same due to discount rate etc.

2. Identify the separate performance obligation in the contract:-

Performance obligation is a promise to transfer to a customer:

- Goods or services or a bundle of goods or services i.e. distinct or a series of goods or services that are substantially the same and are transferred in the same way.
- If a promise to transfer goods or services is not distinct from goods or services in a contract, then the goods or services are combined in a single performance obligation.
- The goods or services that is promised to a customer is distinct if both the following criteria are met:

- The customer can benefit from the goods or services either on its own or together with resources that are readily available to the customer (i.e. the goods or services are capable of being distinct) and
- The company's promise to transfer the goods or services to the customer is separately identifiable from the other promises in the contract i.e the goods or services are distinct within the context of the contract.

3 Satisfaction of the performance obligation:-

The company recognizes revenue when (or as) the company satisfies a performance obligation by transferring a promised goods or services to the customer.

The real estate properties are transferred when (or as) the customer obtains control of the property.

4 Determination of transaction price:-

The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods or services to customer excluding GST. The consideration promised in a contract with a customer may include fixed amount, variable amount or both. In determining transaction price, the company assumes that goods or services will be transferred to

the customer as promised in accordance with the existing contract and the contract can't be cancelled, renewed or modified.

5 Allocating the transaction price to the performance obligation:-

The allocation of the total contract price to various performance obligation are done based on their standalone selling prices, the stand alone selling price is the price at which the company would sell promised goods or services separately to the customers.

6 Recognition of revenue when (or as) the company satisfies a performance obligation:

Performance obligation is satisfied over time or at a point in time

Performance obligation is satisfied over time if one of the criteria out of the following three is met:

- The customer simultaneously receives and consumes a benefit provided by the company's performance as the company performs.
- The company's performance creates or enhances an asset that a customer controls as asset is created or enhanced or
- The company's performance doesn't create an asset within an alternative use to the company and the company has an enforceable right to payment for performance completed to date.

Therefore the revenue recognition for a performance obligation is done over time if one of the criteria is met out of the above three else revenue recognition for a performance obligation is done at point in time.

The company disaggregate revenue from real estate projects on the basis of nature of revenue.

(b) Project Management Fee

Project Management fee is accounted as revenue upon satisfaction of performance obligation as per agreed terms.

(c) Interest Income

Interest due on delayed payments by customers is accounted on accrual basis.

(d) Income from trading sales

Revenue from trading activities is accounted as revenue upon satisfaction of performance obligation.

(e) Dividend income

Dividend income is recognized when the right to receive the payment is established.

(iv) Borrowing Cost

Borrowing cost that are directly attributable to the acquisition or construction of a qualifying asset (including real estate projects) are considered as part of the cost of the asset/project. All other borrowing costs are treated as period cost and charged to the statement of profit and loss in the year in which incurred.

(v) Property, Plant and Equipment

Recognition and initial measurement

Properties plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on Property, Plant and Equipment is provided on written down value method based on the useful life of the asset as specified

in Schedule II to the Companies Act, 2013. The management estimates the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in the case of steel shuttering and scaffolding, whose life is estimated as five years considering obsolescence.

Cost of building constructed on land owned by third party under 'Build Own Transfer' agreement is amortized over the period of the agreement.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

(vi) Intangible Assets

Recognition and initial measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortization and useful lives)

Intangible assets comprising of ERP & other computer software are stated at cost of acquisition less accumulated amortization and are amortised over a period of four years on straight line method.

(vii) Goodwill on Consolidation

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses,

if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

(viii) Impairment of Non Financial Assets

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.

(ix) Financial Instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs

Subsequent measurement

(1) Financial instruments at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All other debt instruments

are measured at Fair Value through other comprehensive income or Fair value through profit and loss based on Group's business model.

- (2) Equity investments – All equity investments in scope of INDAS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.
- (3) Mutual funds – All mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

(b) Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that are attributable to the acquisition of the financial liabilities are also adjusted. These liabilities are carried at as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings and deposits.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged

or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or on the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(c) Compound financial instrument

Compound financial instrument are separated into liability and equity components based on the terms of the contract. On issuance of the said instrument, the liability component is arrived by discounting the gross sum at a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost until it is extinguished on conversion or redemption. The remainder of the proceeds is recognised as equity component of compound financial instrument. This is recognised and included in shareholders' equity, net of income tax effects, and not subsequently re-measured.

(d) Financial guarantee contracts

Financial guarantee contracts are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified party fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of expected loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortization.

(e) Impairment of financial assets

The Group assesses on a forward looking

basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 47 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by INDAS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(f) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(x) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by

selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs:

- Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfer have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosure, the Company has determined classes of assets and liabilities on the basis of nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(xi) Inventories and Projects in Progress

(a) Inventories

- (i) Building material and consumable stores are valued at lower of cost and net realisable value. Cost is determined on the basis of the 'First in First out' method.
- (ii) Land is valued at lower of cost and net realisable value. Cost is determined on average method. Cost includes cost of acquisition and all related costs.
- (iii) Construction work in progress is valued

at lower of cost and net realisable value. Cost includes cost of materials, services and other related overheads related to project under construction.

(iv) Completed real estate project for sale is valued at lower of cost and net realizable value. Cost includes cost of land, materials, construction, services and other related overheads.

(v) Stock in trade is valued at lower of cost and net realisable value.

(b) Projects in progress

Projects in progress are valued at lower of cost and net realisable value. Cost includes cost of land, development rights, materials, construction, services, borrowing costs and other overheads relating to projects.

(xii) Foreign currency translation

(a) Functional and presentation currency

The financial statements are presented in currency INR, which is also the functional currency of the Group and presented in crores.

(b) Foreign currency transactions and balances

i. Foreign currency transactions are recorded at exchange rates prevailing on the date of respective transactions.

ii. Financial assets and financial liabilities in foreign currencies existing at balance sheet date are translated at year-end rates.

iii. Foreign currency translation differences related to acquisition of imported fixed assets are adjusted in the carrying amount of the related fixed assets. All other foreign currency gains and losses are recognized in the statement of profit and loss.

(xiii) Retirement benefits

i. Contributions payable by the Group to the concerned government authorities in

respect of provident fund, family pension fund and employee state insurance are charged to the statement of profit and loss.

ii. The Group is having Group Gratuity Scheme with Life Insurance Corporation of India. Provision for gratuity is made based on actuarial valuation in accordance with INDAS-19.

iii. Provision for leave encashment in respect of unavailed leave standing to the credit of employees is made on actuarial basis in accordance with INDAS-19.

iv. Actuarial gains/losses resulting from re-measurements of the liability/asset are included in other comprehensive income.

(xiv) Provisions, contingent assets and contingent liabilities

A provision is recognized when:

- the Group has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

(xv) Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive

potential equity shares.

(xvi) Leases

The company has applied INDAS 116 w.e.f. 01.04.2019. In accordance with INDAS 116, the company recognises right of use assets representing its right of use the underlying asset for the lease term at the lease commencement date. The cost of right of use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before commencement date less any lease incentive received plus any initial direct cost incurred and an estimate of cost to be incurred by lessee in dismantling and removing underlying asset or restoring the underlying asset or site on which it is located. The right of use asset is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any, and adjusted for any re-measurement of lease liability. The right of use assets is depreciated using the Straight Line Method from the commencement date over the charter of lease term or useful life of right of use asset. The estimated useful life of right of use assets are determined on the same basis as those of Property, Plant and Equipment. Right of use asset are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in Statement of Profit and Loss.

The company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate.

The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modification or to reflect revised-in-substance fixed lease payments. The company recognises amount

of re-measurement of lease liability due to modification as an adjustment to write off use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of right of use assets is reduced to zero and there is further reduction in measurement of lease liability, the company recognises any remaining amount of the re-measurement in Statement of Profit and Loss.

The company has elected not to apply the requirements of INDAS 116 to short term leases of all assets that have a lease term of 12 months or less unless renewable on long term basis and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense over lease term.

(xvii) Income Taxes

- i. Provision for current tax is made based on the tax payable under the Income Tax Act, 1961. Current income tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity)
- ii. Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

(xviii) Cash and Cash Equivalent

Cash and Cash equivalent in the balance sheet comprises cash at bank and cash on hand, demand deposits and short term deposits which are subject to an insignificant change in value.

The amendment to INDAS-7 requires entities

to provide disclosure of change in the liabilities arising from financing activities, including both changes arising from cash flows and non cash changes (such as foreign exchange gain or loss). The Company has provided information for both current and comparative period in cash flow statement.

(xix) **Significant management judgements in applying accounting policies and estimation of uncertainty**

Significant management judgements

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

The following are significant management judgements in applying the accounting policies of the Group that have the most significant effect on the financial statements.

(a) **Estimation of uncertainty related to Global Health Pandemic from COVID-19**

The company has assessed the possible effect that may result from pandemic relating to COVID-19 on carrying amount of receivables, inventory, investments, advances and other assets & liabilities. In considering the assessment, the company has considered internal information and is highly dependent on estimates and circumstances as they evolve.

(b) **Recognition of deferred tax assets**

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized.

(c) **Recoverability of advances/receivables**

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

(d) **Defined benefit obligation (DBO)**

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

(e) **Provisions**

At each balance sheet date based on management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However the actual future outcome may be different from this judgement.

(f) **Inventories**

Inventory is stated at the lower of cost or net realisable value (NRV).

NRV for completed inventory is assessed including but not limited to market conditions and prices existing at the reporting date and is determined by the Company based on net amount that it expects to realise from the sale of inventory in the ordinary course of business.

NRV in respect of inventories under construction is assessed with reference to market prices (by referring to expected or recent selling price) at the reporting date less estimated costs to complete the construction, and estimated cost necessary to make the sale. The costs to complete the construction are estimated by management.

(g) **Lease**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of INDAS 116. Identification of a lease requires significant judgement. The company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The company determines the lease term as the non-cancellable period of lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the company is reasonably certain not to exercise that option. In exercise whether the company is reasonably certain to exercise an option to extend a lease or to exercise an option to terminate the lease, it considers all relevant facts and circumstances that create an economic incentive for the company to exercise the option to extend the lease or to exercise the option to terminate the lease. The company revises lease term, if there is change in non-cancellable period of lease. The discount rate used is generally based on incremental borrowing rate.

(h) **Fair value measurements**

Management applies valuation techniques

to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument / assets. Management bases its assumptions on observable data as far as possible but this may not always be available. In that case Management uses the best relevant information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(i) **Classification of assets and liabilities into current and non-current**

The Management classifies assets and liabilities into current and non-current categories based on its operating cycle.

- 38 Balances of trade receivables, trade payables, loan/ advances given and financial and non financial assets and liabilities are subject to reconciliation and confirmation from respective parties. The balance of said trade receivables, trade payables, loan/ advances given and financial and non financial assets and liabilities are taken as shown by the books of accounts. The ultimate outcome of such reconciliation and confirmation cannot presently be determined, therefore, no provision for any liability that may result out of such reconciliation and confirmation has been made in the financial statement, the financial impact of which is unascertainable due to the reasons as above stated.
- 39 The Income Tax Department has filed writ petition before Hon'ble Supreme Court against the order of Income tax settlement commission in earlier years for assessment year 2000-01 to 2006-07, which is pending for hearing. Pending final outcome of such petition filed, no provision of any potential liability has been made in the books of accounts, the amount of which cannot presently be ascertained.

The income tax department has raised a demand of Rs. 41.67 crore against the company after giving effect to orders of ITAT for A.Y. 2007-08, mainly on account of disallowance u/s 80IB. The company has filed further appeals/ application before the High Court against the impugned order of the ITAT. An amount of Rs. 57.98 crore has been deposited/ adjusted by the company against this demand under dispute. Further the Income Tax Department has also filed necessary appeals/ writ petitions/ SLP with appropriate authority against the relief given by various appellate authorities of Rs. 150.49 crore to the Company. A further demand of Rs. 165.96 crore has been raised against the Group for A.Y.s 2011-12 to 2017-18 on various accounts and the company has filed/ is in the process of filing appeals before the CIT(A)/ Writ petition before the Hon'ble High Court against these demands. An amount of Rs. 27.27 crore has been deposited by the company against this demand under dispute. Provision against disputed tax demands amounting to Rs. 11.18 crores has been made in financial statement and it's appearing in long term provisions in note no. 7.

Based on the decision of various appellate authorities and the interpretations of relevant provisions of Income Tax Act, 1961, the Company has been advised by the experts that the demand so raised is likely to be deleted.

- 40 During the year ended 31st March, 2022, the group (Omaxe Limited and two its subsidiary companies) was subjected to search under section 132 of the Income Tax Act 1961. Subsequent proceedings before Investigation wing are under way. Tax liability, if any arising out of such proceedings shall be accounted in the Financial Year in which such demand is crystallised.
- 41 The Ministry of Corporate Affairs (MCA) through Companies (Indian Accounting Standard) Amendment Rules 2019 and Companies (Indian Accounting Standard) Second Amendment Rules has notified INDAS 116 'leases' which replaces existing lease standard, INDAS 17 Leases and other Interpretation. INDAS 116 sets out the principles for recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single on balance sheet lease accounting model for lessees.

On application of INDAS 116, the nature of expense has changed from lease rent in previous periods to depreciation cost for right of use asset and finance cost for interest accrued on lease liability.

The detail of right of use asset held by the company is as follows:

Note 43: EMPLOYEE BENEFIT OBLIGATIONS

1) Post-Employment Obligations – Gratuity

The group provides gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service. For the funded plan the group makes contributions to recognised funds in India. The group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the Financial Statement and the movements in the net defined benefit obligation over the year are as follows:

For short term financial assets and liabilities carried at amortized cost, the carrying value is reasonable approximation of fair value.

Note 47: RISK MANAGEMENT

'The Group's activities expose it to market risk, liquidity risk and credit risk. The management has the overall responsibility for the establishment and oversight of the Group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Group. The Group's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

Credit risk management

Credit risk rating

The Group assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk on financial reporting date

B: Moderate Credit Risk

C: High credit risk

The Group provides for expected credit loss based on the following:

Credit risk	Basis of categorization	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances and investment	12 month expected credit loss
Moderate credit risk	Trade receivables and other financial assets	Life time expected credit loss or 12 month expected credit loss

Based on business environment in which the Group operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or litigation decided against the Group. The Group continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in the statement of profit and loss.

(Rupees in Crore)

Credit rating	Particulars	As at 31 March 2022	As at 31 March 2021
A: Low credit risk	Cash and cash equivalents, other bank balances and investment	314.38	287.05
B: Moderate credit risk	Trade receivables and other financial assets	713.75	700.65

Concentration of trade receivables

Trade receivables consist of a large number of customers spread across various states in India with no significant concentration of credit risk.

Credit risk exposure

Provision for expected credit losses

The Group provides for 12 month expected credit losses for following financial assets –

As at 31 March 2022

(Rupees in Crore)

Particulars	Gross carrying amount	Expected credit losses	Carrying amount net of expected credit losses

Other receivables	7.80	3.51	4.29
Total	728.30	27.65	700.65

The Group considers provision for lifetime expected credit loss for trade receivables, loans and advances given. Given the nature of business operations, the Group's receivables from real estate business has little history of losses as transfer of legal title of properties sold is generally passed on to the customer, once the Group receives the entire consideration. Advances are given for purchase of land and for other goods and services. Therefore trade receivables and advances given have been considered as moderate credit risk financial assets.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates.

Market risk

Interest Rate risk

The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. As At 31st March the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. Other borrowings are at fixed interest rates.

Group's exposure to interest rate risk on borrowings is as follows:

(Rupees in Crore)

Particulars	As at 31 March 2022	As at 31 March 2021
Variable rate	823.42	1,175.28
Fixed rate	125.53	168.85

Note 48: CAPITAL MANAGEMENT POLICIES

(a) Capital Management

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern as well as to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group monitors capital on the basis of the carrying amount of equity plus its subordinated loan, less cash and cash equivalents as presented on the face of the statement of financial position and cash flow hedges recognised in other comprehensive income.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares. The amounts managed as capital by the group are summarised as follows:

Note 54: STANDARDS ISSUED AND AMENDED BUT NOT EFFECTIVE

The Ministry of Corporate Affairs (MCA) notifies new Indian Accounting Standards or amendments to the existing standards under companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the companies (Indian Accounting Standards) Amendment Rules, 2022 as below.

IND AS 16-Property Plant and equipment- The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any shall not be recognized in the profit and loss but deducted from the directly attributable costs considered as part of cost of an item of property plant and equipment. The effective date for adoption of this amendment is annual period beginning on or after April 1, 2022. The company has evaluated the amendment and there is no impact on its consolidated financial statements.

IND AS 37-Provisions, Contingent Liabilities and Contingent Assets- The amendment specifies that cost fulfilling a 'contract comprises costs that relate directly to the contractor'. Cost that relate directly to a contract can either be incremental costs of fulfilling the contract (example would be direct materials, labour) or an allocation of other costs that relate directly to fulfilling contracts (example would be allocation of depreciation charge for an item of property plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022 although early adoption is permitted. The company has evaluated the amendment and there is no impact on company consolidated financials.

Note 55: The Previous year figures have been regrouped/ reclassified, wherever necessary, to make them comparable with current year figures.

The notes referred to above form an integral part of consolidated financial statements.
